#### KW-R950BTS:

##### CAUTION

Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.

In compliance with Federal Regulations, following are reproductions of labels on, or inside the product relating to laser product safety.

JVCKENWOOD Corporation  
3-12, MORIYA-CHO, KANAGAWA-KU,  
YOKOHAMA-SHI, KANAGAWA, 221-0022, JAPAN

THIS PRODUCT COMPLIES WITH DHHS RULES 21CFR  
SUBCHAPTER J IN EFFECT AT DATE OF MANUFACTURE.

Location : Top Plate

#### Información acerca de la eliminación de equipos eléctricos y electrónicos al final de la vida útil (aplicable a los países que hayan adoptado sistemas independientes de recogida de residuos)

Los productos con el símbolo de un contenedor con ruedas tachado no podrán ser desechados como residuos domésticos. Los equipos eléctricos y electrónicos al final de la vida útil, deberán ser reciclados en instalaciones que puedan dar el tratamiento adecuado a estos productos y a sus subproductos residuales correspondientes. Póngase en contacto con su administración local para obtener información sobre el punto de recogida más cercano. Un tratamiento correcto del reciclaje y la eliminación de residuos ayuda a conservar los recursos y evita al mismo tiempo efectos perjudiciales en la salud y el medio ambiente.

#### Informação sobre a eliminação de pilhas

Este produto não deve ser eliminado como lixo doméstico geral. Devolva a pilha usada ao revendedor ou entidade autorizada para que a mesma seja devolvida ao fabricante ou importador.

A reciclagem e a eliminação de lixo de maneira apropriada ajudarão a conservar os recursos naturais ao mesmo tempo que prevenirão os efeitos prejudiciais à nossa saúde e ao meio ambiente.

#### CALIFORNIA, USA ONLY

This product contains a CR Coin Cell Lithium Battery which contains Perchlorate Material—special handling may apply. See [www.dtsc.ca.gov/hazardouswaste/perchlorate](http://www.dtsc.ca.gov/hazardouswaste/perchlorate)

#### FCC CAUTION

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

#### Supplier's Declaration of Conformity

Trade Name: JVC  
Products: CD RECEIVER  
Model Name: KW-R950BTS  
Products: DIGITAL MEDIA RECEIVER  
Model Name: KW-X855BTS/KW-X850BTS  
Responsible Party: JVCKENWOOD USA CORPORATION  
4001 Worsham Avenue, Long Beach, CA 90808, U.S.A.  
PHONE: 1-800-252-5722

THIS DEVICE COMPLIES WITH PART 15 OF THE FCC RULES. OPERATION IS SUBJECT TO THE FOLLOWING TWO CONDITIONS:

- (1) THIS DEVICE MAY NOT CAUSE HARMFUL INTERFERENCE, AND
- (2) THIS DEVICE MUST ACCEPT ANY INTERFERENCE RECEIVED, INCLUDING INTERFERENCE THAT MAY CAUSE UNDESIRABLE OPERATION.

### ISED Caution

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

### Attention de l'ISED

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

1. L'appareil ne doit pas produire de brouillage.
2. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

|                           |         |              |
|---------------------------|---------|--------------|
| Contains Bluetooth Module | FCC ID: | ZWY88112     |
|                           | IC ID:  | 12033A-88112 |

This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

### CAUTION

This equipment complies with FCC/ISED radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines and RSS-102 of the ISED radio frequency (RF) Exposure rules. This equipment should be installed and operated keeping the radiator at least 20 cm or more away from person's body.

### ATTENTION

Cet équipement est conforme aux limites d'exposition aux rayonnements énoncées pour un environnement non contrôlé et respecte les règles des radioélectriques (RF) de la FCC lignes directrices d'exposition et d'exposition aux fréquences radioélectriques (RF) CNR-102 de l'ISED. Cet équipement doit être installé et utilisé en gardant une distance de 20 cm ou plus entre le radiateur et le corps humain.

### Para cumplimiento de la IFT:

"La operación de este equipo está sujeta a las siguientes dos condiciones:

- (1) es posible que este equipo o dispositivo no cause interferencia perjudicial y
- (2) este equipo o dispositivo debe aceptar cualquier interferencia, incluyendo la que pueda causar su operación no deseada"

## SOFTWARE LICENSE AGREEMENT

The software embedded in the Product (hereinafter the "Licensed Software") provided by Licensor is copyrighted to or sublicensable by the Licensor, and this Agreement provides for the terms and conditions which Users shall follow in order to use the Licensed Software.

The User shall use the Licensed Software by agreeing with the terms of this Software License Agreement. This Agreement shall be deemed completed at the time the User (hereinafter the "User") initially used the Product in which the "Licensed Software" is embedded.

The Licensed Software may include the software which has been licensed to the Licensor directly or indirectly from any third party. In such case, some third parties require the Users to follow their conditions for use separately from this Software License Agreement. Such software shall not be subject to this Agreement, and the Users are urged to read the "Important Notice concerning the Software" to be provided separately below.

### Article 1 General Provision

The Licensor shall grant to the User a non-exclusive and non-transferable (other than the exceptional case referred to in Article 3, Paragraph 1) licensed to use the Licensed Software within the country of the User. (the country where the User bought the Product (hereinafter the "Country"))

### Article 2 License

1. The license granted under this Agreement shall be the right to use the Licensed Software in the Product.
2. The User shall not duplicate, copy, modify, add, translate or otherwise alter, or lease the Licensed Software and any related documents, whether in whole or in part.
3. The use of the Licensed Software shall be limited to personal purpose, and the Licensed Software shall not be distributed, licensed or sub-licensed whether it is for commercial purpose or not.
4. The User shall use the Licensed Software according to the directions described in the operation manual or help file, and is prohibited to use or duplicate any data in a manner violating the Copyright Law or any other laws and regulations by applying whole or a part of the Licensed Software.

### Article 3 Conditions for Grant of License

1. When the User transfers the Product, it may also transfer the license to use the Licensed Software embedded in the Product (including any related materials, updates and upgrades) on condition that no original, copies or related materials continue in the possession of the User, and that the User shall cause the transferee to comply with this Software License Agreement.
2. The User shall not carry out reverse engineering, disassembling, decompiling or any other code analysis works in connection with the Licensed Software.

#### **Article 4 Right pertaining to the Licensed Software**

Any and all copyrights and other rights pertaining to the Licensed Software and related documents shall belong to the Licensor or the original holder of the right who granted to the Licensor the license or sublicense for the Licensed Software (hereinafter the "Original Rightholder"), and the User shall not be entitled to any right other than the license granted hereunder, in respect of the Licensed Software and any related documents.

#### **Article 5 Indemnification of Licensor**

1. Neither the Licensor nor the Original Rightholder shall be liable for any damage incurred by the User or any third party due to the exercise of the license granted to the User under this Agreement, unless otherwise restricted by law.
2. The Licensor will offer no guarantee for the merchantability, convertibility and consistency with certain objective of the Licensed Software.

#### **Article 6 Liability to Third Party**

If any dispute has arisen with any third party due to an infringement upon a copyright, patent or any other intellectual property right that was caused by the User's use of the Licensed Software, the User shall settle such dispute at its own cost and hold the Licensor and the Original Rightholder harmless from any inconvenience it may cause.

#### **Article 7 Confidentiality**

The User shall keep the confidentiality of such portion of the Licensed Software, related documents thereof or any other information to be granted under this Agreement, as well as the conditions of this Agreement as has not yet entered the public domain, and shall not disclose or divulge the same to any third party without approval of the Licensor.

#### **Article 8 Termination**

In case the User falls under any of the events described in the following items, the Licensor may immediately terminate this Agreement or claim that the User compensates for the damage incurred by the Licensor due to such event:

- (1) when the User violated any provision of this Agreement; or
- (2) when a petition has been filed against the User for an attachment, provisional attachment, provisional disposition or any other compulsory execution.

#### **Article 9 Destruction of the Licensed Software**

If this Agreement is terminated pursuant to the provision of Article 8, the User shall destroy the Licensed Software, any related documents and copies thereof within two (2) weeks from such date of termination.

#### **Article 10 Protection of Copyright**

1. The copyright and all the other intellectual property rights relating to the Licensed Software shall belong to the Licensor and the Original Rightholder, and in no event shall they be under the ownership of the User.
2. The User shall, whenever it uses the Licensed Software, comply with any laws relating to the copyright and other intellectual property rights.

#### **Article 11 Export Restriction**

1. It is prohibited to export the Licensed Software and any related documents outside the country of the User (including transmission thereof outside the country of the User via Internet of other communication tools).
2. The User shall understand that the Licensed Software shall be subject to the export restrictions adopted by the country of User and any other countries.
3. The User shall agree that the software will be subject to any and all applicable international and domestic laws (including the export control regulation of the country of User and any other countries, and any restrictions concerning the end-users, the use by end-users and importing countries to be provided by the country of User and any other countries, and any other governmental authorities).

#### **Article 12 Miscellaneous**

1. In the event any part of this Agreement is invalidated by operation of law, the residual provisions shall continue in force.
2. Matters not stipulated in this Agreement or any ambiguity or question raised in the construction of this Agreement shall be provided or settled upon good-faith consultation between the Licensor and the User.
3. The Licensor and the User hereby agree that this Agreement is governed by the laws of Japan, and any dispute arising from, and relating to the rights and obligations under, this Agreement shall be submitted to the exclusive jurisdiction of the Tokyo District Court for its first instance.

# INSTALLATION/CONNECTION

This section is for the professional installer.

For safety's sake, leave wiring and mounting to professionals. Consult the car audio dealer.

## ▲ Warning

- The unit can only be used with a 12 V DC power supply, negative ground.
- Disconnect the battery's negative terminal before wiring and mounting.
- Do not connect Battery wire (yellow) and Ignition wire (red) to the car chassis or Ground wire (black) to prevent a short circuit.
- To prevent short circuit:
  - Insulate unconnected wires with vinyl tape.
  - Be sure to ground this unit to the car's chassis again after installation.
  - Secure the wires with cable clamps and wrap vinyl tape around the wires that comes into contact with metal parts to protect the wires.

## ▲ Caution

- Install this unit in the console of your vehicle. Do not touch the metal parts of this unit during and shortly after use of the unit. Metal parts such as the heat sink and enclosure become hot.
- Do not connect the  $\ominus$  wires of speakers to the car chassis or Ground wire (black), or connect them in parallel.
- Connect speakers with a maximum power of more than 50 W. If the maximum power of the speakers is lower than 50 W, change the [AMP GAIN] setting to avoid damaging the speakers.
- Mount the unit at an angle of less than 30°.
- If your vehicle wiring harness does not have the ignition terminal, connect Ignition wire (red) to the terminal on the vehicle's fuse box which provides 12 V DC power supply and is turned on and off by the ignition key.
- Keep all cables away from heat dissipate metal parts.
- After the unit is installed, check whether the brake lamps, blinkers, wipers, etc. on the car are working properly.
- If the fuse blows, first make sure the wires are not touching car's chassis, then replace the old fuse with one that has the same rating.

## ■ Basic procedure

- 1 Remove the key from the ignition switch, then disconnect the  $\ominus$  terminal of the car battery.
- 2 Connect the wires properly. See "Wiring connection" on page 3.
- 3 Install the unit to your car. See "Installing the unit (in-dash mounting)".
- 4 Connect the  $\ominus$  terminal of the car battery.
- 5 Press SOURCE  $\odot$  to turn on the power.
- 6 Reset the unit. See "How to reset" on page 4.

### Installing the unit (in-dash mounting)

\* Only for illustration purpose.

▲ Use only the specified screws. Using wrong screws might damage the unit.

## ■ Part list (supplied)

- (A) Wiring harness (×1)
- (B) Flat head screw, M5 × 8 mm (M5 × 3/8") (×8)
- (C) Round head screw, M5 × 8 mm (M5 × 3/8") (×8)

## Wiring connection

- a Light blue/yellow: To the steering wheel remote control adapter
- b Brown (not used)
- c Blue: To power antenna
- d Blue/white: To amplifier
- e Blue/white: Remote (12 V  $\approx$  350 mA)
- f Orange/white: Illumination
- g Yellow: Battery 12 V
- h Red: Ignition 12 V
- i Black: Ground
- j Gray  $\oplus$ , Gray/black  $\ominus$ : Front speaker (right)
- k White  $\oplus$ , White/black  $\ominus$ : Front speaker (left)
- l Purple  $\oplus$ , Purple/black  $\ominus$ : Rear speaker (right)
- m Green  $\oplus$ , Green/black  $\ominus$ : Rear speaker (left)

## BEFORE USE

### IMPORTANT

- To ensure proper use, please read through this Guide before using this product. It is especially important that you read and observe Warnings and Cautions in this Guide.
- Please keep the Guide in a safe and accessible place for future reference.

### ▲ Warning

Do not operate any function that takes your attention away from safe driving.

### ▲ Caution

#### Volume setting:

- Adjust the volume so that you can hear sounds outside the car to prevent accidents.
- Lower the volume before playing digital sources to avoid damaging the speakers by the sudden increase of the output level.

#### General:

- Avoid using the external device if it might hinder safe driving.
- Make sure all important data has been backed up. We shall bear no responsibility for any loss of recorded data.
- Never put or leave any metallic objects (such as coins or metal tools) inside the unit to prevent a short circuit.
- For KW-R950BTS: If a disc error occurs due to condensation on the laser lens, eject the disc and wait for the moisture to evaporate.
- Depending on the types of cars, the antenna will automatically extend when you turn on the unit with the antenna control wire connected. Turn off the unit when parking at a low ceiling area.

## BASICS (on faceplate)

\*1 Only for illustration purpose.

| To                               | On the faceplate                                          |
|----------------------------------|-----------------------------------------------------------|
| Turn on the power                | Press SOURCE .<br>• Press and hold to turn off the power. |
| Adjust the volume                | Turn the volume knob.                                     |
| Select a source                  | Press SOURCE  repeatedly.                                 |
| Change the display information*2 | Press -MENU repeatedly.                                   |

\*2 One of the display information supports Music Synchronization Effect. The illumination color or brightness level of the buttons changes and synchronizes with the music level.

# GETTING STARTED

## 1 Acknowledge the crossover type and cancel the demonstration

When you turn on the power for the first time (or [FACTORY RESET] is set to [YES]), the display shows: "2-WAY X'OVER" or "3-WAY X'OVER" → "PRESS" → "VOLUME KNOB" → "TO CONFIRM".

- 1 Press the volume knob to acknowledge the current crossover type.  
Then, the display shows: "CANCEL DEMO" → "PRESS" → "VOLUME KNOB".
- 2 Press the volume knob.  
[YES] is selected for the initial setup.
- 3 Press the volume knob again.  
"DEMO OFF" appears.

## 2 Set the clock and date

- 1 Press and hold ·MENU.
- 2 Turn the volume knob to select [CLOCK], then press the knob.

### To adjust the clock

- 3 Turn the volume knob to select [CLOCK ADJUST], then press the knob.
- 4 Turn the volume knob to make the settings, then press the knob.  
Set the time in the order of "Hour" → "Minute".
- 5 Turn the volume knob to select [CLOCK FORMAT], then press the knob.
- 6 Turn the volume knob to select [12H] or [24H], then press the knob.

### To set the date

- 7 Turn the volume knob to select [DATE SET], then press the knob.
- 8 Turn the volume knob to make the settings, then press the knob.  
Set the date in the order of "Day" → "Month" → "Year".
- 9 Press ·MENU to exit.

To return to the previous setting item, press / .

## 3 Set the basic settings

- 1 Press and hold ·MENU.
- 2 Turn the volume knob to select an item (see the following table), then press the knob.
- 3 Repeat step 2 until the desired item is selected or activated.
- 4 Press ·MENU to exit.

To return to the previous setting item, press / .

Default: [XX]

| [SYSTEM]        |                                                                                                                 |
|-----------------|-----------------------------------------------------------------------------------------------------------------|
| [KEY BEEP]      | (Not applicable when 3-way crossover is selected.)<br>[ON]: Activates the keypress tone. ; [OFF]: Deactivates.  |

## Radio

### Search for a station

- 1 Press SOURCE  repeatedly to select FM or AM.
- 2 Press  /  to search for a station automatically.

(or)

Press and hold  /  until "M" flashes, then press repeatedly to search for a station manually.

### Settings in memory

You can store up to 18 stations for FM and 6 stations for AM.

#### Store a station

While listening to a station....

Press and hold one of the number buttons (1 to 6).

(or)

- 1 Press and hold the volume knob until "PRESET MODE" flashes.
- 2 Turn the volume knob to select a preset number, then press the knob. "MEMORY" appears once the station is stored.

#### Select a stored station

Press one of the number buttons (1 to 6).

(or)

- 1 Press  / .
- 2 Turn the volume knob to select a preset number, then press the knob.

## CD/USB/iPod

Selectable source:

- KW-R950BTS: CD/USB/iPod USB or iPod BT
- KW-X855BTS: USB FRONT/USB REAR/iPod FRONT/iPod REAR or iPod BT
- KW-X850BTS: USB/iPod USB or iPod BT

### Start playback

The source changes automatically and playback starts when you load a disc or attach a device (USB device/ iPod/iPhone) to the USB input terminal.

- Be sure [USB] is selected for [IPHONE SETUP] in [USB] menu for listening to iPod/iPhone.

| To                   | On the faceplate                                                                                                                                                                       |
|----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reverse/Fast-forward | Press and hold  /  . |
| Select a track/file  | Press  /  .          |
| Select a folder      | Press 1  / 2  .   |
| Repeat play          | Press 5  repeatedly.                                                                                  |
| Random play          | Press 4  repeatedly.                                                                                  |

# Menu Settings

- 1 Press and hold ·MENU to enter menu settings.
- 2 Turn the volume knob to select an item, then press the knob.
- 3 Repeat step 2 until the desired item is selected/activated.
- 4 Press ·MENU to exit.

To return to the previous setting item, press .

- Refer to the INSTRUCTION MANUAL on the following website for the detailed explanation of each item: <<https://www.jvc.net/cs/car/>>
- The availability of each item vary depending on the model.

## Menu items

- [EQ SETTING] : Selects a preset equalizer or adjusts your own sound settings.
- [AUDIO CONTROL] : Sets your preferred audio settings.
- [SOUND EFFECT] : Sets your preferred sound effect.
- [DISPLAY] : Sets your preferred control for the display window.
- [COLOR] : Sets your preferred illumination color for buttons.
- [TUNER SETTING] : Settings for radio source.
- [SIRIUS XM] : Settings for Sirius XM tuner.
- [USB] : Sets iPod/iPhone playback source (via USB input terminal or via Bluetooth).
- [BT MODE] : Settings for using a Bluetooth device.
- [REMOTE APP] : Settings for using smartphone to control this unit.
- [ALEXA SETUP] : Sets your preferred voice control language for Alexa.
- [MIC GAIN]\* : Sets the sensitivity of the microphone.
- [NR LEVEL]\* : Adjusts the noise reduction level.
- [ECHO CANCEL]\* : Adjusts the echo cancellation delay time.
- [SYSTEM] : Settings for this unit.
- [CLOCK] : Adjusts the clock.
- [ENGLISH] : Selects language for the menu and music information.
- [ESPAÑOL] : Selects language for the menu and music information.
- [FRANÇAIS] : Selects language for the menu and music information.
- [DEMO MODE] : Activates or deactivates the display demonstration.

\* Applicable only while talking on the phone.

## Examples of some well-used settings

### ■ Subwoofer Level Setting

- 1 Press and hold ·MENU to enter menu settings.

- 2 Turn the volume knob clockwise to select [AUDIO CONTROL], then press the knob.

- 3 Turn the volume knob clockwise to select [SUBWOOFER SET], then press the knob.

- 4 Turn the volume knob clockwise to select [ON], then press the knob.

- 5 Turn the volume knob clockwise to select [SUB.W LEVEL], then press the knob.

- 6 Press the volume knob if [PRE-OUT] is shown on the display.

- 7 Turn the volume knob to adjust the subwoofer level, then press the knob.

Continued on the next page...

- 8 Press ·MENU to exit the setting menu.

## Illumination Color Setting

You can set your preferred illumination color for each zone.

- 1 Press and hold ·MENU to enter menu settings.

- 2 Turn the volume knob clockwise to select [COLOR], then press the knob.

- 3 Press the volume knob if [PRESET] is shown on the display.

- 4 Turn the volume knob to choose a zone ([ALL ZONE], [ZONE 1], [ZONE 2]), then press the knob.

- 5 Turn the volume knob to choose a color, then press the knob.

- [COLOR 01] to [COLOR 49]
- [USER]: The color you have created for [DAY COLOR] or [NIGHT COLOR] is shown.
- [COLOR FLOW01] to [COLOR FLOW03]: Color changes at different speeds.
- [CRYSTAL]/[FLOWER]/[FOREST]/[GRADATION]/[OCEAN]/[RELAX]/[SUNSET]: The selected color pattern is shown. (Selectable only when [ALL ZONE] is selected in step 4.)

- 6 Repeat step 4 and step 5 to set color for other zones.

- 7 Press ·MENU to exit.

## Other Information

For playback operations of **AUX**, **SiriusXM® Radio** and **AMAZON ALEXA** sources, refer to the INSTRUCTION MANUAL on the following website:

<https://www.jvc.net/cs/car/>>

- The availability of each source vary depending on the model.

### Note for specifications

Bluetooth Frequency Range:

2.402 GHz — 2.480 GHz

Bluetooth RF Output Power (E.I.R.P.):

+4 dBm (MAX), Power Class 2

Speaker Impedance:

4 Ω — 8 Ω

Operating Voltage:

12 V DC car battery

# BLUETOOTH®

- Depending on the Bluetooth version, operating system and the firmware version of your mobile phone, Bluetooth features may not work with this unit.
- Be sure to turn on the Bluetooth function of the device to make the following operations.
- Signal conditions vary depending on the surroundings.

## Connect the microphone

Connect the supplied microphone to the microphone input jack on the rear panel.

Adjust the microphone angle

Secure using cord clamps (not supplied) if necessary.

## Pair and connect a Bluetooth device for the first time

- Press SOURCE to turn on the unit.
- Search and select the name of your receiver ("KW-R950BTS"/"KW-X855BTS"/"KW-X850BTS") on the Bluetooth device.
- Perform (A) or (B) depending on what appears on the display.  
For some Bluetooth devices, pairing sequence may vary from the steps described below.

(A) "[Device Name]" → "XXXXXX" → "VOL – YES" → "BACK – NO"  
"XXXXXX" is a 6-digit passkey randomly generated during each pairing.

- Ensure that the passkeys appear on the unit and Bluetooth device are the same.
- Press the volume knob to confirm the passkey.
- Operate the Bluetooth device to confirm the passkey.

(B) "[Device Name]" → "VOL – YES" → "BACK – NO"

- Press the volume knob to start pairing.
- If "PAIRING" → "PIN 0000" scrolls on the display, enter the PIN code "0000" into the Bluetooth device.
  - If only "PAIRING" appears, operate the Bluetooth device to confirm pairing.

"PAIRING COMPLETED" appears when pairing is completed and will light up when the Bluetooth connection is established.

## Answer a call

Press or the volume knob.

- To adjust the phone volume [00] to [35], turn the volume knob.
- To end a call, press and hold or the volume knob.

## Audio player via Bluetooth

- Press SOURCE repeatedly to select BT AUDIO.
- Operate the audio player via Bluetooth to start playback.

|---------------------------|------------------------|
| Play back/pause           | Press the volume knob. |
| Select group or folder    | Press 1  / 2 .         |
| Reverse skip/Forward skip | Press  / .             |
| Reverse/Fast-forward      | Press and hold  / .    |
| Repeat play               | Press 5  repeatedly.   |
| Random play               | Press 4  repeatedly.   |

# INSTALLATION/RACCORDEMENT

Cette section est réservée aux installateurs professionnels.

Pour des raisons de sécurité, laissez le travail de câblage et de montage des professionnels. Consultez votre revendeur autoradio.

## ▲ Avertissement

- L'appareil peut uniquement être utilisé avec une alimentation de 12 V CC, à masse négative.
- Déconnectez la borne négative de la batterie avant le câblage et le montage.
- Ne connectez pas le fil de batterie (jaune) et le fil d'allumage (rouge) au châssis de la voiture ou au fil de masse (noir) pour éviter les courts-circuits.
- Pour éviter les courts-circuits:
  - Isolez les fils non connectés avec du ruban adhésif.
  - Assurez-vous de raccorder de nouveau la mise à la masse de cet appareil au châssis de la voiture après l'installation.
  - Fixez les câbles avec des serre-câbles et enroulez un ruban de vinyle autour des câbles qui entrent en contact avec des pièces métalliques pour protéger les câbles.

## ▲ Précautions

- Installez cet appareil dans la console de votre véhicule. Ne touchez pas les parties métalliques de cet appareil pendant ou juste après son utilisation. Les parties métalliques, comme le dissipateur de chaleur et le boîtier, deviennent chaudes.
- Ne connectez pas les fils  $\ominus$  des enceintes au châssis de la voiture, au fil de masse (noir) ou en parallèle.
- Connectez des enceintes avec une puissance maximum de plus de 50 W. Si la puissance maximum des enceintes est inférieure à 50 W, changez le réglage [AMP GAIN] pour éviter d'endommager les enceintes.
- Montez l'appareil avec un angle de moins de 30°.
- Si le faisceau de fils de votre véhicule ne possède pas de borne d'allumage, connectez le fil d'allumage (rouge) à la borne du boîtier de fusible de votre véhicule qui offre une alimentation de 12 V CC et qui se met en et hors service avec la clé de contact.
- Gardez tous les câbles à l'écart des dissipateurs thermiques.
- Après avoir installé l'appareil, vérifiez si les lampes de frein, les indicateurs, les clignotants, les essuie-glaces, etc. de la voiture fonctionnent correctement.
- Si un fusible saute, assurez-vous d'abord que les câbles ne touchent pas le châssis de la voiture puis remplacez le vieux fusible par un nouveau de même valeur.

## ■ Procédure de base

- 1 Retirez la clé de contact, puis déconnectez la borne  $\ominus$  de la batterie de la voiture.
- 2 Connectez les fils correctement. Voir "Connexions" à la page 3.
- 3 Installez l'appareil dans votre voiture. Voir "Installation de l'appareil (montage encastré)".
- 4 Connectez la borne  $\ominus$  de la batterie de la voiture.
- 5 Appuyez sur SOURCE  $\odot$  pour mettre l'appareil sous tension.
- 6 Réinitialisez l'appareil. Voir "Comment réinitialiser" à la page 4.

### Installation de l'appareil (montage encastré)

\* Uniquement à des fins d'illustration.

▲ N'utiliser que les vis spécifiés. L'utilisation de vis incorrectes peut endommager l'appareil.

## ■ Liste de pièces (fourni)

- (A) Faisceau de fils (x1)
- (B) Vis à tête plate, M5 x 8 mm (M5 x 3/8 pouces) (x8)
- (C) Vis à tête ronde, M5 x 8 mm (M5 x 3/8 pouces) (x8)

The diagram illustrates the recommended connection for the antenna system. It shows the following components and steps:

- Tableau de bord du véhicule** (Vehicle dashboard): The main power source.
- Borne de l'antenne** (Antenna terminal): The connection point on the antenna.
- Faisceau de câbles de l'usine (véhicule)** (Factory cable harness): The cable bundle from the vehicle.
- Faisceau de fils personnalisé (vendu séparément)** (Customized wire harness, sold separately): An additional harness used for the connection.
- Connexion recommandée** (Recommended connection): The final wiring setup.
- Étapes de connexion:**
  - 1**: Connect the antenna terminal to the factory cable harness.
  - 2**: Connect the factory cable harness to the dashboard.
  - 3**: Connect the customized wire harness to the factory cable harness.
  - 4**: Connect the customized wire harness to the dashboard.
- Fusible (10 A)** (10 A Fuse): A fuse is shown in the dashboard area.
- REMARQUE** (NOTE): A note indicates that the wires should be connected by color (e.g., red to red, blue to blue).
- REMARQUE** (NOTE): A note indicates that the wires should be connected by color (e.g., red to red, blue to blue).
- REMARQUE** (NOTE): A note indicates that the wires should be connected by color (e.g., red to red, blue to blue).

# AVANT L'UTILISATION

## IMPORTANTES

- Pour utiliser correctement l'appareil, veuillez lire ce Guide complétement avant de l'utiliser. Il est particulièrement important que vous lisiez et acceptiez les avertissements et les précautions de ce Guide.
- Veuillez garder ce Guide dans un endroit sûr et accessible pour une utilisation future.

## ⚠ Avertissement

N'utilisez aucune fonction qui risque de vous distraire de la conduite sûre de votre véhicule.

## ⚠ Précautions

### Réglage du volume:

- Ajustez le volume de façon à pouvoir entendre les sons extérieurs à la voiture afin d'éviter tout risque d'accident.
- Réduisez le volume avant de reproduire des sources numériques afin d'éviter d'endommager les enceintes par la soudaine augmentation du niveau de sortie.

### Généralités:

- Éviter d'utiliser le périphérique extérieur s'il peut gêner une conduite en toute sécurité.
- Assurez-vous que toutes les données importantes ont été sauvegardées. Nous ne pouvons pas être tenu responsable pour toute perte des données enregistrées.
- Veuillez faire en sorte de ne jamais mettre ou laisser d'objets métalliques (tels que des pièces ou des outils) dans l'appareil, afin d'éviter tout risque de court-circuit.
- Pour KW-R950BTS: Si une erreur de disque se produit à cause de la condensation sur l'objectif laser, éjectez le disque et attendez que l'humidité s'évapore.
- En fonction du type de voiture, l'antenne s'étendra automatiquement quand vous mettrez l'appareil sous tension si le câble de commande d'antenne est connecté. Mettez l'appareil hors tension quand vous vous garez dans un parking avec un plafond bas.

# FONCTIONNEMENT DE BASE (sur la façade)

### Comment réinitialiser

\*1 Uniquement à des fins d'illustration.

| Pour                                    | Sur la façade                                                                                                                                                                                                              |
|-----------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Mettez l'appareil sous tension          | Appuyez sur SOURCE  <ul style="list-style-type: none"><li>• Maintenez la touche enfoncée pour mettre l'appareil hors tension.</li></ul> |
| Ajustez le volume                       | Tournez le bouton de volume.                                                                                                                                                                                               |
| Sélectionner la source                  | Appuyez répétitivement sur SOURCE  .                                                                                                    |
| Changez l'information sur l'affichage*2 | Appuyez répétitivement sur  • MENU.                                                                                                     |

\*2 Une des informations de l'affichage prend en charge l'effet de synchronisation musicale. La couleur d'éclairage ou le niveau de luminosité des touches change et est synchronisé avec le niveau de la musique.

# PRISE EN MAIN

## 1 Vérifiez le type de transition et annulez la démonstration

Quand vous mettez l'appareil sous tension pour la première fois (ou que [FACTORY RESET] est réglé sur [YES]), l'affichage montre: "2-WAY X'OVER" ou "3-WAY X'OVER" ➡ "PRESS" ➡ "VOLUME KNOB" ➡ "TO CONFIRM".

- 1 Appuyez sur le bouton de volume pour valider le type de transition actuel. Puis, l'affichage montre: "CANCEL DEMO" ➡ "PRESS" ➡ "VOLUME KNOB".
- 2 Appuyez sur le bouton de volume. [YES] est choisi pour le réglage initial.
- 3 Appuyez de nouveau sur le bouton de volume. "DEMO OFF" apparaît.

## 2 Réglez l'horloge et la date

- 1 Maintenez enfoncée • MENU.
- 2 Tournez le bouton de volume pour choisir [CLOCK], puis appuyez sur le bouton.

### Pour ajuster l'horloge

- 3 Tournez le bouton de volume pour choisir [CLOCK ADJUST], puis appuyez sur le bouton.
- 4 Tournez le bouton de volume pour faire les réglages, puis appuyez sur le bouton. Réglez l'heure dans l'ordre "Heures" ➡ "Minutes".
- 5 Tournez le bouton de volume pour choisir [CLOCK FORMAT], puis appuyez sur le bouton.
- 6 Tournez le bouton de volume pour choisir [12H] ou [24H], puis appuyez sur le bouton.

### Pour régler la date

- 7 Tournez le bouton de volume pour choisir [DATE SET], puis appuyez sur le bouton.
- 8 Tournez le bouton de volume pour faire les réglages, puis appuyez sur le bouton. Réglez la date dans l'ordre "Jour" ➡ "Mois" ➡ "Année".
- 9 Appuyez sur • MENU pour quitter.

Pour retourner à l'option de réglage précédente, appuyez sur / .

## 3 Faites les réglages de base

- 1 Maintenez enfoncée • MENU.
- 2 Tournez le bouton de volume pour sélectionner un élément (voir le tableau suivant), puis appuyez sur le bouton.
- 3 Répétez l'étape 2 jusqu'à ce que l'élément souhaité soit sélectionné ou activé.
- 4 Appuyez sur • MENU pour quitter.

Pour retourner à l'option de réglage précédente, appuyez sur / .

# Réglages du menu

- 1 Maintenez enfoncée  •MENU pour entrer en réglages du menu.
- 2 Tournez le bouton de volume pour choisir un élément, puis appuyez sur le bouton.
- 3 Répétez l'étape 2 jusqu'à ce que l'élément souhaité soit sélectionné ou activé.
- 4 Appuyez sur  •MENU pour quitter.

Pour retourner à l'option de réglage précédente, appuyez sur .

- Reportez-vous au MANUEL D'INSTRUCTIONS sur les sites web suivant pour une explication détaillée de chaque élément: <<https://www.jvc.net/cs/car/>>
- La disponibilité de chaque élément varie en fonction du modèle.

## Éléments du menu

|                 |                                                                                      |
|-----------------|--------------------------------------------------------------------------------------|
| [EQ SETTING]    | Sélectionne un égaliseur préréglé ou ajuste vos propres réglages du son.             |
| [AUDIO CONTROL] | Règle vos réglages audio préférés.                                                   |
| [SOUND EFFECT]  | Règle votre effet sonore préféré.                                                    |
| [DISPLAY]       | Règle votre commande préférée pour la fenêtre d'affichage.                           |
| [COLOR]         | Règle votre couleur d'éclairage préférée pour les touches.                           |
| [TUNER SETTING] | Réglages pour la source radio.                                                       |
| [SIRIUS XM]     | Réglages pour le tuner Sirius XM.                                                    |
| [USB]           | Règle la source de lecture iPod/iPhone (via la prise d'entrée USB ou via Bluetooth). |
| [BT MODE]       | Réglages pour l'utilisation d'un périphérique Bluetooth.                             |
| [REMOTE APP]    | Réglages pour l'utilisation d'un smartphone pour commander cet appareil.             |
| [ALEXA SETUP]   | Règle votre langue de commande vocale préférée pour Alexa.                           |
| [MIC GAIN]*     | Règle la sensibilité d'un microphone.                                                |
| [NR LEVEL]*     | Ajuste du niveau de réduction de bruit.                                              |
| [ECHO CANCEL]*  | Ajuste le temps de retard d'annulation de l'écho.                                    |
| [SYSTEM]        | Réglages pour cet appareil.                                                          |
| [CLOCK]         | Règle l'horloge.                                                                     |
| [ENGLISH]       | Sélectionne la langue pour le menu et les informations sur le morceau.               |
| [ESPANOL]       | Sélectionne la langue pour le menu et les informations sur le morceau.               |
| [FRANCAIS]      | Sélectionne la langue pour le menu et les informations sur le morceau.               |
| [DEMO MODE]     | Met en ou hors service la démonstration des affichages.                              |

\* Utilisable uniquement pendant que vous parlez au téléphone.

## Exemples de certains réglages utilisés fréquemment

### ■ Réglage du niveau de caisson de grave

- 1 Maintenez enfoncée  •MENU pour entrer en réglages du menu.  

- 2 Tournez le bouton de volume dans le sens des aiguilles d'une montre pour choisir [AUDIO CONTROL], puis appuyez sur le bouton.  

- 3 Tournez le bouton de volume dans le sens des aiguilles d'une montre pour choisir [SUBWOOFER SET], puis appuyez sur le bouton.  

- 4 Tournez le bouton de volume dans le sens des aiguilles d'une montre pour choisir [ON], puis appuyez sur le bouton.  

- 5 Tournez le bouton de volume dans le sens des aiguilles d'une montre pour choisir [SUB.W LEVEL], puis appuyez sur le bouton.  

- 6 Appuyez sur le bouton de volume si [PRE-OUT] apparaît sur l'affichage.  

- 7 Tournez le bouton de volume pour ajuster le niveau de caisson de grave, puis appuyez sur le bouton.  

Suite à la page suivante...

- 8 Appuyez sur -MENU pour quitter le menu de réglage.

## ■ Réglage de la couleur d'éclairage

Vous pouvez régler votre couleur d'éclairage préférée pour chaque zone.

- 1 Maintenez enfoncée -MENU pour entrer en réglages du menu.

- 2 Tournez le bouton de volume dans le sens des aiguilles d'une montre pour choisir [COLOR], puis appuyez sur le bouton.

- 3 Appuyez sur le bouton de volume si [PRESET] apparaît sur l'affichage.

- 4 Tournez le bouton de volume pour choisir une zone ([ALL ZONE], [ZONE 1], [ZONE 2]), puis appuyez sur le bouton.

- 5 Tournez le bouton de volume pour choisir une couleur, puis appuyez sur le bouton.

- [COLOR 01] à [COLOR 49]
- [USER]: La couleur que vous avez créée pour [DAY COLOR] ou [NIGHT COLOR] apparaît.
- [COLOR FLOW01] à [COLOR FLOW03]: La couleur change à une vitesse différente.
- [CRYSTAL]/[FLOWER]/[FOREST]/[GRADATION]/[OCEAN]/[RELAX]/[SUNSET]: Le motif de couleur sélectionné apparaît. (Sélectionnable uniquement quand [ALL ZONE] est choisi à l'étape 4.)

- 6 Répétez l'étape 4 et l'étape 5 pour régler la couleur pour les autres zones.

- 7 Appuyez sur -MENU pour quitter.

## Autres informations

Pour les opérations de lecture de sources **AUX**, **Radio SiriusXM®** et **AMAZON ALEXA**, reportez-vous au MANUEL D'INSTRUCTIONS sur le site web suivant:  
<<https://www.jvc.net/cs/car/>>

- La disponibilité de chaque source varie en fonction du modèle.

### Remarque pour les spécifications

Plage de fréquences Bluetooth:

2,402 GHz — 2,480 GHz

Puissance de sortie RF Bluetooth (E.I.R.P.):

+4 dBm (MAX), Classe d'alimentation 2

Impédance d'enceinte:

4 Ω — 8 Ω

Tension de fonctionnement:

Batterie de voiture 12 V CC

# BLUETOOTH®

- En fonction de la version Bluetooth, du système d'exploitation et de la version du micrologiciel de votre téléphone portable, la fonction Bluetooth peut ne pas fonctionner avec cet appareil.
- Assurez-vous d'activer la fonction Bluetooth du périphérique pour réaliser les opérations suivantes.
- La condition du signal varie en fonction de l'environnement.

## ■ Connectez le microphone

Branchez le microphone fourni sur la prise d'entrée du microphone sur le panneau arrière.

Ajustez  
l'angle du  
microphone

Fixez si nécessaire  
en utilisant des  
serre-câbles (non  
fourni).

## ■ Faites le pairing et connectez un périphérique Bluetooth pour la première fois

- 1 Appuyez sur **SOURCE** pour mettre l'appareil sous tension.
- 2 Recherchez et sélectionnez le nom de votre récepteur ("KW-R950BTS"/"KW-X855BTS"/"KW-X850BTS") sur le périphérique Bluetooth.
- 3 Réalisez (A) ou (B) en fonction de ce qui apparaît sur l'affichage.  
Pour certains périphériques Bluetooth, la séquence de pairing peut varier en fonction des étapes décrites ci-dessous.

(A) "[Nom du périphérique]" → "XXXXXX" → "VOL – YES" → "BACK – NO"  
"XXXXXX" est un code à 6 chiffres généré aléatoirement pendant chaque pairing.

- 1 Assurez-vous que les codes qui apparaissent sur l'appareil et le périphérique Bluetooth sont les mêmes.
- 2 Appuyez sur le bouton de volume pour valider le code.
- 3 Utilisez le périphérique Bluetooth pour valider le code.

(B) "[Nom du périphérique]" → "VOL – YES" → "BACK – NO"

- 1 Appuyez sur le bouton de volume pour démarrer le pairing.
- 2 Si "PAIRING" → "PIN 0000" défile sur l'affichage, entrez le code PIN "0000" sur le périphérique Bluetooth.
  - Si seul "PAIRING" apparaît, utilisez le périphérique Bluetooth pour confirmer le pairing.

"PAIRING COMPLETED" apparaît quand le pairing est terminé et s'allume quand la connexion Bluetooth est établie.

## ■ Répondre à un appel

Appuyez sur ou sur le bouton de volume.

- Pour ajuster le volume du téléphone entre [00] et [35], tournez le bouton de volume.
- Pour terminer un appel, maintenez enfoncé ou le bouton de volume.

## ■ Lecteur audio via Bluetooth

- 1 Appuyez répétitivement sur **SOURCE** pour sélectionner BT AUDIO.
- 2 Commandez le lecteur audio via Bluetooth pour démarrer la lecture.

| Pour                                         | Sur la façade                    |
|----------------------------------------------|----------------------------------|
| Lecture/pause                                | Appuyez sur le bouton de volume. |
| Choisissez un groupe ou un dossier           | Appuyez sur 1 ▲ / 2 ▼.           |
| Saut vers l'arrière/saut vers l'avant        | Appuyez sur ◀◀ / ▶▶.             |
| Recherche rapide vers l'arrière/vers l'avant | Maintenez enfoncée ◀◀ / ▶▶.      |
| Lecture répétée                              | Appuyez répétitivement sur 5 ↺.  |
| Lecture aléatoire                            | Appuyez répétitivement sur 4 ↻.  |

# INSTALACIÓN/CONEXIÓN

Esta sección es para los instaladores profesionales.

Para fines de seguridad, deje que un profesional realice el cableado y el montaje. Consulte con un distribuidor de productos de audio para automóviles.

## ▲ Advertencia

- La unidad puede utilizarse solamente con una fuente de alimentación de 12 V CC con negativo a masa.
- Desconecte el terminal negativo de la batería antes de realizar el cableado y el montaje.
- Para evitar un cortocircuito, no conecte el cable de la batería (amarillo) ni el cable de encendido (rojo) al chasis del vehículo o cable de conexión a masa (negro).
- Para evitar cortocircuitos:
  - Utilice una cinta de vinilo para aislar los cables no conectados.
  - Asegúrese de volver a conectar a masa esta unidad al chasis del automóvil después de la instalación.
  - Para proteger los cables, asegúrelos con abrazaderas de cables y con una cinta de vinilo, enrolle los cables que entran en contacto con partes metálicas.

## ▲ Precaución

- Instale esta unidad en la consola de su vehículo. No toque las partes metálicas de la unidad durante o un poco después del uso de la unidad. Las partes metálicas, tales como el disipador de calor o la carcasa, pueden estar muy calientes.
- No conecte los cables  $\ominus$  de los altavoces al chasis del vehículo, al cable de conexión a masa (negro) o en paralelo.
- Conecte altavoces con una potencia máxima de más de 50 W. Si la potencia máxima de los altavoces es inferior a 50 W, cambie el ajuste [AMP GAIN] para evitar daños en los mismos.
- Monte la unidad a un ángulo de menos de 30°.
- Si el mazo de conductores de su vehículo no dispone de terminal de encendido, conecte el cable de encendido (rojo) al terminal de la caja de fusibles del vehículo, el cual suministrará una alimentación de 12 V CC y podrá conectarse y desconectarse mediante la llave de encendido.
- Mantenga todos los cables alejados de las partes metálicas disipadoras de calor.
- Después de instalar la unidad, compruebe que las lámparas de freno, las luces intermitentes, el limpiaparabrisas, etc. funcionen satisfactoriamente.
- Si se funde el fusible, en primer lugar asegúrese de que los cables no estén en contacto con el chasis del vehículo y, a continuación, reemplace el fusible usado por otro del mismo régimen.

## ■ Procedimiento básico

- Quite la llave del interruptor de encendido; después, desconecte el terminal  $\ominus$  de la batería del automóvil.
- Conecte los cables correctamente. Consulte "Conexión del cableado" en la página 3.
- Instale la unidad en su automóvil. Consulte "Instalación de la unidad (montaje en el tablero)".
- Conecte el terminal  $\ominus$  de la batería del automóvil.
- Pulse SOURCE  $\odot$  para encender la unidad.
- Reinicie la unidad. Consulte "Cómo reinicializar" en la página 4.

### Instalación de la unidad (montaje en el tablero)

\* Solo para fines ilustrativos.

▲ Utilice solo los tornillos especificados. El uso de tornillos incorrectos puede dañar la unidad.

## ■ Lista de piezas (suministradas)

- (A) Mazo de conductores (x1)
- (B) Tornillo de cabeza plana, M5 x 8 mm (M5 x 3/8 pulgada) (x8)
- (C) Tornillo de cabeza esférica, M5 x 8 mm (M5 x 3/8 pulgada) (x8)

## Conexión del cableado

- a Luz azul/amarilla: Al adaptador del mando a distancia del volante de la dirección
- b Marrón (sin utilizar)
- c Azul: A la antena motriz
- d Azul/blanco: Al amplificador
- e Azul/blanco: Remoto (12 V  $\equiv$  350 mA)
- f Naranja/blanco: Iluminación
- g Amarillo: Batería de 12 V
- h Rojo: Encendido de 12 V
- i Negro: Tierra
- j Gris  $\oplus$ , Gris/negro  $\ominus$ : Altavoz delantero (derecho)
- k Blanco  $\oplus$ , Blanco/negro  $\ominus$ : Altavoz delantero (izquierdo)
- l Púrpura  $\oplus$ , Púrpura/negro  $\ominus$ : Altavoz trasero (derecho)
- m Verde  $\oplus$ , Verde/negro  $\ominus$ : Altavoz trasero (izquierdo)

# ANTES DEL USO

## IMPORTANTE

- Antes de utilizar este producto y para asegurar su uso correcto, lea esta guía por completo. En especial, lea y observe las Advertencias y Precauciones incluidas en esta guía.
- Guarde la guía en un lugar seguro y accesible para futuras consultas.

## ▲ Advertencia

No utilice ninguna función que pueda desviar su atención mientras está conduciendo el vehículo.

## ▲ Precaución

### Ajuste del volumen:

- Ajuste el volumen a un nivel que le permita oír los ruidos del exterior para impedir accidentes.
- Antes de reproducir fuentes digitales, baje el volumen para evitar que el repentino aumento del nivel de salida cause daños a los altavoces.

### General:

- Evite el uso de dispositivos externos cuando puedan afectar la seguridad de conducción.
- Asegúrese de tener una copia de respaldo de todos los datos importantes. No aceptamos responsabilidad alguna por la pérdida de los datos grabados.
- Para evitar cortocircuitos, nunca coloque ni deje objetos metálicos (por ejemplo, monedas o herramientas metálicas) dentro de la unidad.
- Para KW-R950BTS: Si ocurre un error de disco debido a la condensación en el lente láser, extraiga el disco y espere hasta que se evapore la humedad.
- Dependiendo del tipo de vehículo, la antena se extiende automáticamente cuando se enciende la unidad con el cable de control de antena conectado. Apague la unidad cuando estacione en un lugar con techo bajo.

# PUNTOS BÁSICOS (en la placa frontal)

\*1 Solo para fines ilustrativos.

### Cómo reinicializar

| Para                                 | En la placa frontal                                                                                                                                   |
|--------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| Encender la unidad                   | Pulse SOURCE <br>• Pulse y mantenga pulsado para apagar la unidad. |
| Ajustar el volumen                   | Gire la rueda de volumen.                                                                                                                             |
| Seleccionar una fuente               | Pulse SOURCE  repetidamente.                                       |
| Cambiar la información en pantalla*2 | Pulse  • MENU repetidamente.                                       |

\*2 Una de las informaciones en pantalla admite el Efecto de sincronización de música. El color de iluminación o el nivel de brillo de los botones cambia y se sincroniza con el nivel de música.

# PROCEDIMIENTOS INICIALES

## 1 Confirmar el tipo de transición y cancelar la demostración

Cuando enciende la unidad por primera vez (o [FACTORY RESET] está ajustado a [YES]), en la pantalla se muestra: "2-WAY X'OVER" o "3-WAY X'OVER" ➡ "PRESS" ➡ "VOLUME KNOB" ➡ "TO CONFIRM".

- 1 Pulse la rueda de volumen para confirmar el tipo de transición actual. A continuación, en la pantalla se muestra: "CANCEL DEMO" ➡ "PRESS" ➡ "VOLUME KNOB".
- 2 Pulse la rueda de volumen. Se selecciona [YES] para la configuración inicial.
- 3 Pulse de nuevo la rueda de volumen. Aparece "DEMO OFF".

## 2 Ajuste del reloj y la fecha

- 1 Pulse y mantenga pulsado • MENU.
- 2 Gire la rueda de volumen para seleccionar [CLOCK] y, a continuación, pulse la rueda.

### Para ajustar el reloj

- 3 Gire la rueda de volumen para seleccionar [CLOCK ADJUST] y, a continuación, pulse la rueda.
- 4 Gire la rueda de volumen para realizar los ajustes y, a continuación, pulse la rueda. Ajuste la hora en el orden de "Hora" ➡ "Minutos".
- 5 Gire la rueda de volumen para seleccionar [CLOCK FORMAT] y, a continuación, pulse la rueda.
- 6 Gire la rueda de volumen para seleccionar [12H] o [24H] y, a continuación, pulse la rueda.

### Para ajustar la fecha

- 7 Gire la rueda de volumen para seleccionar [DATE SET] y, a continuación, pulse la rueda.
- 8 Gire la rueda de volumen para realizar los ajustes y, a continuación, pulse la rueda. Ajuste la fecha en el orden de "Día" ➡ "Mes" ➡ "Año".
- 9 Pulse • MENU para salir.

Para volver al elemento de ajuste anterior, pulse / .

## 3 Realice los ajustes básicos

- 1 Pulse y mantenga pulsado • MENU.
- 2 Gire la rueda de volumen para seleccionar un elemento (consulte la siguiente tabla) y, a continuación, pulse la rueda.
- 3 Repita el paso 2 hasta que se seleccione o active el elemento deseado.
- 4 Pulse • MENU para salir.

Para volver al elemento de ajuste anterior, pulse / .

Predeterminado: [XX]

| [SYSTEM]        |                                                                                                                                            |

| [FACTORY RESET] | [YES]: Se restablecen los ajustes predeterminados (excepto la emisora memorizada). ; [NO]: Se cancela.                                     |
| [CLOCK]         |                                                                                                                                            |
| [CLOCK DISPLAY] | [ON]: La hora del reloj siempre se visualiza en la pantalla cuando la unidad está apagada. ; [OFF]: Se cancela.                            |
| [ENGLISH]       | Seleccione el idioma de visualización para el menú y la información de la música, si corresponde.<br>Por defecto, se selecciona [ENGLISH]. |
| [ESPAÑOL]       |                                                                                                                                            |
| [FRANCAIS]      |                                                                                                                                            |

## Radio

### Búsqueda de una emisora

- 1 Pulse SOURCE  repetidamente para seleccionar FM o AM.
- 2 Pulse  /  para la búsqueda automática de emisoras.  
(o)  
Pulse y mantenga pulsado  /  hasta que parpadee "M" y, a continuación, pulse repetidamente para realizar la búsqueda manual de emisoras.

### Ajustes en la memoria

Puede almacenar hasta 18 emisoras de FM y 6 emisoras de AM en la memoria.

#### Almacene una emisora

Mientras escucha una emisora....

Pulse y mantenga pulsado uno de los botones numéricos (1 a 6).

- 1 Pulse y mantenga pulsada la rueda de volumen hasta que "PRESET MODE" parpadee.
- 2 Gire la rueda de volumen para seleccionar un número de preajuste y, a continuación, pulse la rueda.  
Aparece "MEMORY" una vez almacenada la emisora.

#### Seleccione una emisora almacenada

Pulse uno de los botones numéricos (1 a 6).

- 1 Pulse  / .
- 2 Gire la rueda de volumen para seleccionar un número de preajuste y, a continuación, pulse la rueda.

## CD/USB/iPod

Fuente seleccionable:

- KW-R950BTS: CD/USB/iPod USB o iPod BT
- KW-X855BTS: USB FRONT/USB REAR/iPod FRONT/iPod REAR o iPod BT
- KW-X850BTS: USB/iPod USB o iPod BT

### Inicie la reproducción

La fuente cambia automáticamente y la reproducción se inicia al cargar un disco o al conectar un dispositivo (dispositivo USB/ iPod/iPhone) al terminal de entrada USB.

- Asegúrese de que [USB] esté seleccionado para [IPHONE SETUP] en el menú [USB] para escuchar el iPod/iPhone.

| Para                           | En la placa frontal                                                                                                                                                                                  |

| Seleccionar una pista/archivo  | Pulse  /  .                     |
| Seleccionar una carpeta        | Pulse 1  / 2  .                 |
| Repetir reproducción           | Pulse 5  repetidamente.                                                                                            |
| Reproducción aleatoria         | Pulse 4  repetidamente.                                                                                            |

# Ajustes del menú

- 1 Pulse y mantenga pulsado ·MENU para acceder a los ajustes del menú.
- 2 Gire la rueda de volumen para seleccionar un elemento y, a continuación, pulse la rueda.
- 3 Repita el paso 2 hasta que se seleccione o active el elemento deseado.
- 4 Pulse ·MENU para salir.

Para volver al elemento de ajuste anterior, pulse / .

- Para obtener más detalles sobre cada una de las opciones, consulte el MANUAL DE INSTRUCCIONES en el siguiente sitio web: <<https://www.jvc.net/cs/car/>>
- La disponibilidad de cada opción varía según el modelo.

## Elementos del menú

|                 |                                                                                                                |
|-----------------|----------------------------------------------------------------------------------------------------------------|
| [EQ SETTING]    | : Selecciona un ecualizador preajustado o realiza sus propios ajustes de sonido.                               |
| [AUDIO CONTROL] | : Establece sus ajustes de audio preferidos.                                                                   |
| [SOUND EFFECT]  | : Establece el efecto de sonido preferido.                                                                     |
| [DISPLAY]       | : Establece su control preferido para la ventanilla de visualización.                                          |
| [COLOR]         | : Establece el color de iluminación preferido para los botones.                                                |
| [TUNER SETTING] | : Configuración de la fuente de radio.                                                                         |
| [SIRIUS XM]     | : Configuración del sintonizador Sirius XM.                                                                    |
| [USB]           | : Ajusta la fuente de reproducción de iPod/iPhone (a través del terminal de entrada USB o mediante Bluetooth). |
| [BT MODE]       | : Configuración utilizando un dispositivo Bluetooth.                                                           |
| [REMOTE APP]    | : Configuración utilizando un smartphone para controlar esta unidad.                                           |
| [ALEXA SETUP]   | : Establece el idioma de control por voz preferido para Alexa.                                                 |
| [MIC GAIN]*     | : Establece la sensibilidad del micrófono.                                                                     |
| [NR LEVEL]*     | : Ajusta el nivel de reducción de ruido.                                                                       |
| [ECHO CANCEL]*  | : Ajusta el tiempo de retardo de cancelación de eco.                                                           |
| [SYSTEM]        | : Configuración de esta unidad.                                                                                |
| [CLOCK]         | : Ajusta el reloj.                                                                                             |
| [ENGLISH]       | : Selecciona el idioma para el menú y la información de música.                                                |
| [ESPANOL]       | : Selecciona el idioma para el menú y la información de música.                                                |
| [FRANCAIS]      | : Selecciona el idioma para el menú y la información de música.                                                |
| [DEMO MODE]     | : Activa o desactiva la demostración en pantalla.                                                              |

\* Aplicable solamente mientras se habla por teléfono.

## Ejemplos de algunos ajustes de uso frecuente

### ■ Ajuste del nivel de subwoofer

- 1 Pulse y mantenga pulsado ·MENU para acceder a los ajustes del menú.

- 2 Gire la rueda de volumen en sentido horario para seleccionar [AUDIO CONTROL] y, a continuación, pulse la rueda.

- 3 Gire la rueda de volumen en sentido horario para seleccionar [SUBWOOFER SET] y, a continuación, pulse la rueda.

- 4 Gire la rueda de volumen en sentido horario para seleccionar [ON] y, a continuación, pulse la rueda.

- 5 Gire la rueda de volumen en sentido horario para seleccionar [SUB.W LEVEL] y, a continuación, pulse la rueda.

- 6 Pulse la rueda de volumen si [PRE-OUT] se muestra en la pantalla.

- 7 Gire la rueda de volumen para ajustar el nivel de subwoofer y, a continuación, pulse la rueda.

Continúa en la página siguiente...

- 8 Pulse MENU para salir del menú de ajuste.

## Ajuste del color de iluminación

Puede ajustar el color de iluminación preferido para cada zona.

- 1 Pulse y mantenga pulsado MENU para acceder a los ajustes del menú.

- 2 Gire la rueda de volumen en sentido horario para seleccionar [COLOR] y, a continuación, pulse la rueda.

- 3 Pulse la rueda de volumen si [PRESET] se muestra en la pantalla.

- 4 Gire la rueda de volumen para elegir una zona ([ALL ZONE], [ZONE 1], [ZONE 2]) y, a continuación, pulse la rueda.

- 5 Gire la rueda de volumen para seleccionar un color y, a continuación, pulse la rueda.

- [COLOR 01] a [COLOR 49]
- [USER]: Se muestra el color que ha creado para [DAY COLOR] o [NIGHT COLOR].
- [COLOR FLOW01] a [COLOR FLOW03]: El color cambia según las velocidades.
- [CRYSTAL]/[FLOWER]/[FOREST]/[GRADATION]/[OCEAN]/[RELAX]/[SUNSET]: Se muestra el patrón del color seleccionado. (Puede seleccionarse sólo si se selecciona [ALL ZONE] en el paso 4.)

- 6 Repita los pasos 4 y 5 para definir el color para las otras zonas.

- 7 Pulse MENU para salir.

## Otras informaciones

Con respecto a las operaciones de reproducción de las fuentes **AUX**, **Radio SiriusXM®** y **AMAZON ALEXA**, consulte el MANUAL DE INSTRUCCIONES en el siguiente sitio web: <https://www.jvc.net/cs/car/>

- La disponibilidad de cada fuente varía según el modelo.

### Nota sobre las especificaciones

Rango de frecuencia Bluetooth:

2,402 GHz — 2,480 GHz

Potencia de salida de RF Bluetooth (E.I.R.P.):

+4 dBm (MAX), potencia clase 2

Impedancia del altavoz:

4 Ω — 8 Ω

Voltaje de trabajo:

Batería de 12 V CC para vehículos

# BLUETOOTH®

- Las funciones Bluetooth podrían no funcionar con esta unidad, dependiendo de la versión de Bluetooth, del sistema operativo y de la versión de firmware de su teléfono móvil.
- Para realizar las siguientes operaciones, asegúrese de activar la función Bluetooth del dispositivo.
- Las condiciones de la señal varían dependiendo del entorno.

## Conecte el micrófono

Conecte el micrófono suministrado a la toma de entrada de micrófono en el panel trasero.

Ajuste el ángulo del micrófono

Asegúrelo mediante abrazaderas para cable (no suministradas) si fuera necesario.

## Emparejar y conectar por primera vez un dispositivo Bluetooth

- Pulse **SOURCE** para encender la unidad.
- Busque y seleccione el nombre de su receptor ("KW-R950BTS"/"KW-X855BTS"/"KW-X850BTS") en el dispositivo Bluetooth.
- Realice (A) o (B) dependiendo de los datos mostrados en la pantalla.  
En el caso de algunos dispositivos Bluetooth, la secuencia de emparejamiento puede diferir de lo descrito en los siguientes pasos.

(A) "[Nombre del dispositivo]" → "XXXXXX" → "VOL – YES" → "BACK – NO"

"XXXXXX" es una clave de 6 dígitos que se genera aleatoriamente durante cada emparejamiento.

- Asegúrese de que las claves que aparecen en la unidad coincidan con las que aparecen en el dispositivo Bluetooth.
- Pulse la rueda de volumen para confirmar la clave.
- Opere el dispositivo Bluetooth para confirmar la clave.

(B) "[Nombre del dispositivo]" → "VOL – YES" → "BACK – NO"

- Pulse la rueda de volumen para iniciar el emparejamiento.
- Si "PAIRING" → "PIN 0000" aparece en la pantalla, ingrese el código PIN "0000" en el dispositivo Bluetooth.
  - Si solo aparece "PAIRING", opere el dispositivo Bluetooth para confirmar el emparejamiento.

El mensaje "PAIRING COMPLETED" aparece cuando ha finalizado el emparejamiento; se iluminará cuando se establezca la conexión Bluetooth.

## Contestar una llamada

Pulse o la rueda de volumen.

- Para ajustar el volumen del teléfono de [00] a [35], gire la rueda de volumen.
- Para finalizar una llamada, pulse y mantenga pulsado o la rueda de volumen.

## Reproductor de audio a través de Bluetooth

- Pulse **SOURCE** repetidamente para seleccionar BT AUDIO.
- Para iniciar la reproducción, utilice el reproductor de audio a través de Bluetooth.
